Picking Operation Interface

Interface for warehouse workers to use while picking which includes pod layout, amount to pick, product image, and product information.

Replenish List

List of current replenish requests that are in the system with detail information.

The screenshot displays a software interface for a 'Replenish List'. At the top, there is a navigation bar with a dropdown menu set to 'Regular Picking' and several status filters: 'Not processed', 'Waiting to process', 'Being processed', 'Finished', and 'Cancel'. Below this is a table with the following columns: Order No., Customer, # of Product, Qty, Order Date, and Status. The table contains 10 rows of data, all with a status of 'Not processed'. At the bottom right of the main area are three buttons: 'Start' (blue), 'Pause' (black), and 'Print' (black). On the right side, there is a vertical sidebar labeled 'Station #1' containing four buttons: 'Main Menu', 'Operation', 'Picking List', and 'Logout'.

Order No.	Customer	# of Product	Qty	Order Date	Status
▶ 6175350	Liftians	1	1	10-31-2018 14:13:02	Not processed
